

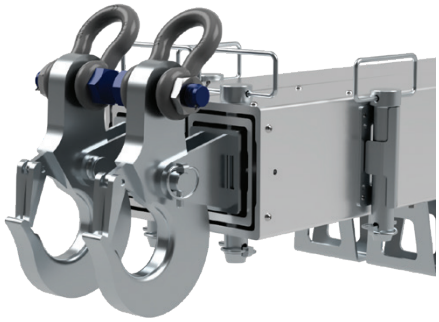
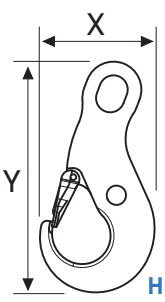
ALUEX HOOK

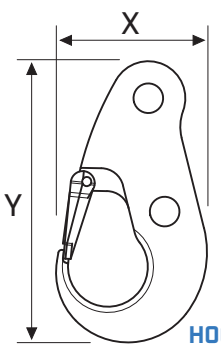
The Aluex Hook is a quick release hook designed specifically for our spreader beams. A more efficient way to set up your rigging.

As an alternative to our load links, the Aluex Hook reduces the number of shackles needed and eliminates connection links.

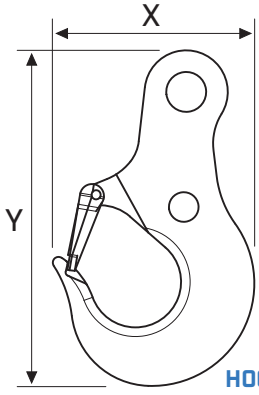




HOOK 5



HOOK 10



HOOK 20

SPECIFICATIONS ALUEX HOOK 5

WLL* (t)	1,25
Length Y (mm)	203
